IMPORTANT SAFETY INSTRUCTIONS

Read all instructions prior to use

WARNING!

1. The product must only be used for its intended purpose as described in this manual. The product may not be combined, fitted or repaired with other parts, accessories or spare parts other than those described in this manual or other documentation published by Care of Sweden.
2. Do not use in the vicinity of or in contact with fire sources/hot surfaces, such as fire, burning cigarettes or hot lamps. Although the product has undergone fire testing, it could become damaged if it comes into contact with naked flames.
3. The product does not allow liquid or air to penetrate, but is vapour permeable. Make sure that the patient is positioned correctly to avoid the risk of suffocation.
4. Please try to avoid the simultaneous use of multiple hygiene covers with this product. Because of the risk that the vapour permeability can be destroyed

1 Introduction

Always read the user manual prior to use.

1.1 General information

This product is a medical device in accordance to MDD 93/42/EEC. According to statutory regulations made by the authorities regarding medical devices the manufacturer is required to report all accidents or incidents involving our products. We would be very grateful for all information involving accidents or incidents relating to our products, by reporting them immediately to us here at Care of Sweden. The system has been tested and approved according to the following standards: SS 876 00 01, SS 876 00 02, SS 876 00 04, EN ISO 12182, EN ISO 14971, EN ISO 10993-1, EN ISO 12952, EN 14126.

1.2 Intended use

This product is a functional extension for mattresses.

1.3 Product description

Core: HR foam
Cover: Polyurethane-coated polyester fabric

1.4 Other information

Action plan Pressure ulcers
To achieve the best possible result for this product it is recommended that a well-planned and well-structured working environment be used. In our guideline "Action plan" you will find examples which can be applied and put into practice when using our products.

Mattress guide
This practical guide gives you as a care giver, help in choosing the correct mattress from the Care of Swedens range. This information can be found on our website www.careofsweden.com or you can order a copy from our Customer services by sending your details to info@careofsweden.se.

1.5 Unpacking

When unpacking, check that no parts are damaged. If damages are detected, contact Care of Sweden or your local dealer before using the product.

2 Instruction for use

Optimal Extension is used to extend a short mattress to fit the bed. If the mattress cover is equipped with handles or straps at the head or foot end, the extension can be attached to these using the Velcro straps. If the cover has nothing to attach to, place the extension so that it is held in place between the mattress and headboard. Make up the bed with sheets to increase user comfort.

3 Cleaning

It is important to follow the instructions below before the product is re-used for another user. Consult the hygiene responsible or the supplier for help and instructions when unsure.

HYGIENE COVER

The cover can be machine-washed at max. 95 °C and tumble-dried or drip-dried.

Covers can be wiped off with a mild cleaning solution for this purpose: such as alcohol with or without tensides, Isopropanol 70 %, oxidating solutions or chlorine max 1 %. Excrements and blood spots must be removed immediately with cold water. Carefully follow local instructions and usage instructions for the cleaner.

Chlorine and phenol-based cleaners could adversely affect the PU surface and should be avoided. If chlorine is used, we recommend a mixture of max. 1%.

FOAM CORE

Clean the affected area with a mild cleaning solution for this purpose such as: alcohol with or without tensides, Isopropanol 70 %, oxidating solutions or chlorine max 1 %.

Gently squeeze out water. NB: Don´t wring or roll the foam core to extract water. Let the core dry in a warm, ventilated area (not in direct sunlight). The foam core must be completely dry before it is used again.

NOTE!
Check the hygiene cover each time the product is cleaned. If damaged, it must be replaced or repaired.

4 Other information

4.1 Storage

Store the extension on a flat surface with the zipper closed. Always store at room temperature in a dry area. Make sure the extension is stored where it will not be exposed to thrusts, hits or other things that can damage it. Avoid direct exposure of sunlight.

4.2 Labelling

The extension is labelled with product name, production date, article number, size, EAN-bar code, as well as space for own labelling.

4.3 Warranty

This product is covered by a 2 year warranty. The warranty is valid for production errors. It is not valid for normal wear or deterioration of the product or damages that occur because of careless handling or care of the product.

4.4 Service and maintenance

The extension part needs no other service or maintenance than cleaning as described in this user manual.

4.5 Life expectancy

This product´s expected life is estimated to be 3 years.

4.6 Repairs

For instructions, contact the supplier.

4.7 Recycling

All bed products are fully recyclable and should be recycled as “combustible waste”. No dismantling needed.

4.8 Returns and complaints

Complaints are to be reported to the supplier. Return of a product shall follow the supplier’s instructions and can only be done after the complaint has been reported. Damages due to the transport should be reported to the transportation agent.
